

# Round 3 of Public Input Community Review

The draft plan recommendations are here. Review the work and share your feedback. All are invited!

The comprehensive plan addresses how Worthington maintains what people love and shapes new places that reflect the best of the community — through development character, housing, public spaces, transportation, economic strategy, and environmental stewardship.

Stop by to explore the recommendations, speak one-on-one with the planning team and community committee, and share your feedback. A brief presentation will be offered at 6:45 p.m. The webinar offers a similar experience online. Attend whichever is most convenient.
